## Personal statement

I am an enthusiastic and highly motivated individual that is eager to learn new skills. Learning new technologies and their implications has always motivated me to try and understand them better. I value working alone as well as working with people. I take joy in solving challenging problems.

Programming is one of my abilities. I have taught myself a handful of programming languages as well as some mark-up languages such as HTML/CSS, Python, JavaScript, and BASH.

I also enjoy building computers and diagnosing hardware as well as software problems. Having a Working knowledge of tools such as Performance Monitor, network monitors and disk utilities facilitate me to diagnose issues more effectively. I have Intermediate knowledge of maintaining and diagnosing Linux, macOS, and Windows Operating systems. I am also well versed in using other software such as MS Office suite and Adobe Creative Suite.

Although most of the skills that I have learned are self-taught, I have gained hands-on experience by attempting it myself and learning from my missteps.

## Hobbies & Interests

Some of my interests in computing technologies include Cloud and web applications. Running software and services used by large organisations in containers and virtualisation software on my computer has helped me understand a great deal of how computer systems work.

Though I still have a lot to learn I am always determined to pick up new skills and implement it into projects in the foreseeable future.

## Employment History

Domino's Pizza, Inc. **May 2018 – August 2018**

Working as a customer assistant, I learned to assist customers in the selection and purchase of items Besides Managing the till and Processing cash/credit card transactions accurately & efficiently.

The Wasdell Group **May 2019 - September 2019**

As a Production Operator, working closely with team leaders and supervisors to accomplish production targets by hand packaging different types and products allowed me to learn the working of the production line.
